

## Overstone Combined School EYFS Long Term Plan

Foundation Stage topics are generally linked to the interests of the children in the current class and may vary for different groups of children in the class. The Early Learning Goals describe skills the children are expected to have rather than knowledge and so these can be covered through many different themes or topics. There are some general themes, which are covered each term. Skills are mapped out into terms as a general guide, but many will be taught on an individual or group basis when appropriate for each child, depending on their stage of development.
