

Key Stage One

Summer Newsletter

Dear Parents and Carers,

Summer is finally starting to show itself and so we thought it would be a good time to share some of the children's learning over the busy, last half term. As ever, the children have worked very hard with their learning and enjoyed a variety of activities alongside being back with their friends.

Year 1

Year One have been working very hard designing and making pizzas. Bella really enjoyed it very much,

'Making pizza is so much fun, this is the best day ever'

The children have also learnt about the human body and learning to sing 'Your Imagination' in their music lessons.

Forest School

The children have been planting lots of new trees to attract wildlife to the area.

They have been making bug art and making birds nests.

Reception

Reception's learning theme has been 'Living Things and Their Habitats.' The children have looked at different farm, jungle and under the sea animals. They hunted around the school for minibeasts and built them a bug hotel. The children drew some amazing butterfly life-cycles as well.

'I liked hunting for mini-beasts.' Flynn

Year 2

Year Two have been working extremely hard this half term. In Science, they have been looking at the human body. **'We drew around someone and drew and labelled the internal organs.'** Gracie

They have been looking at sculpture making to show the human form **'I liked making the Degas dancing sculptures.'** Ben

There have also been some explosive literacy lessons.

Get Active Week

During this half term, we had a very active week. The children took part in many physical activities relating to the Olympics and the Paralympics.

'I liked the archery, it was exciting to shoot at the target.' Lucas
